The old reliable Pittsburgh Packet has sent the handsome Virginia to Pittsburgh last night.

The Keystone State will pass down this evening from Pittsburgh. She will return tomorrow night.

The Ohio is rising slightly at Pittsburgh, and if a six-foot stage is reached below the Dam coal will be started South.

The John K. Speed was detained at Evansville on account of labor. It does look like something must be done to compel those lazy river rats to work when there is a chance offered. It is outrageous that steamboats, in spite of good wages paid, should be so completely at their mercy.

Even the coal men themselves could not give any estimate of the amount of Kanawha coal that will be brought out of the Kanawha to Cincinnati on the present run. The rise looked scant and the dams were lowered for the double purpose of letting a few boats out quickly and to augment the swell in the Ohio river, but the Kanawha fell too rapidly for the boats to make more than one trip from the mines to the Point. The Otto Marnet out with seventeen barges, but it was impossible for Captain Burnside to tell what his boats would get out with, the Convoy will probably bring a whole tow, the Mount Clare is expected to get away with a tow, the Annie L. and R. K. Wells are in the Kanawha, and these boats are expected to bring full tows, and it is possible that other boats may get out. Those concerns which had coal dropped down to Point Pleasant will probably get out with full tows. The total shipment of coal will probably not amount to more than 1,000,000 bushels.

\$100—Reward—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
